NO. 44.

Disappointed from the first in not having been acknowledged by foreign Powers— more hitterly disappointed in their concret New York, August 19, 1864—I have more htterly disappointed in their coneral just received the following most interesting expectation that Northern coward.ce or discitle from Queet of Seymour, littly release securion would secure their ends—but a sin ed from 'under hie' at Charleston As gle chance remains, and that is the result of old West Point officer, with General our next election for President It a Dem-Anderson at Sumter, and stationed many ocrat succeeds to Mr Lancoln, they profess yours in the South, he knows the Southern to feel sure of Legotistions and sure of

doustille, when captured in May last, that never to do what the enemy desires—is it be was every meh loy d to the old flag in the equally from in politics? Certain it is il at the only remaining hope of the South hes to Mr. Lincoln's defeat

Now, I am not enough of a politician to

know whether the election of a Democrat our result as favorably to the South as it in result as 1400 and alone may be parent of their belief. But I assured all who ex p essed that behel, that the North, as a mass, is as united as the South, that no form and that any President who would mangurate any measure leading to peace or the basis of Southern independence, would be promptly hung, by loyal acclamation, to the lamp post in front of his own presiden-

However that muy be it we are but frue ourselves there can be one result. What we need is inco-only men-not substitutes or hirelings who go forth for any motive Mry-such as really constitute the State, and boast of being freemen and the sons of and should binsh ever to exercise a freeman's

But if bounties must be paid, let it be in Southern lands, not in Northein gold, and arm as of emigrants, whose sons may aspire to even the rule of the nation, will cross the seas to win the broad acres that disk y-

nity has forfeited to the State
To every intelligent soldier who has fought through all these indecisive camp

our array of strength is so disproportionably less than that against which we battle. Everywhere we meet on nearly equal terms, where we might well have four to one -The cost to us in blood and trensure of a prolonged war, can hardly be foreseenthe economy is infinite of such an effort us the clarious North should put forth

The South will fight as long as the strug-gle is equil, it will submit to such prepou-d rance, as we should show to every field

man had but 50,000 or 70,000 more men near the South would be lost, because Hood would be annihilated. If Meade had moved in the spring with reserves of 75,000 or 100, 000 men, Lee would have been bopele-sly clusted fiven at this moment a third column of 40,000 or 50,000 rightly moved, would give unopposed blows to the Confederacy from which she could never again

What folly then to struckle on in this way when we can send to the field live times the force dready there! What workness to think we cannot conquer the South! ness when Georgie and the Southern cause Billind the James only boys and old men with it, were so reflected that Lee's rmy are to be seen, while here men buy and sell as in the olden days of quiet, and regiments of able bodied out zens crowd the ctreets of our cities

There is but one course consistent with enfety or honor. Let the people nwake to a sense of their dignity and strength, and a few menths of manpiratively trilling exer tion, of such effort as alone is worthy of the great work, - in I the Rebellion will crum ble before us I ill this drait promptly and willingly, with good and true men, send a few spare thousands over rather than under the call, and the summer sun of 1865 will

shine upon a re-enerated had There are some who speak of peace! Of all Ytakies the South most sourns those who do not fight, but are glad enough to employ them, as they do their slaves, to perform their dirty work Peace for the South will be sweet indeed, for us except through Southern subjugation, but war and narroby forever. The Pacific, the Western and Distora States would at once fall saunder The South would be dominant, and the people of the North would deserve to be triven a field under negro overseers, to boe corn and cotton for u. The Gne Thing Needful.

Physicians, with a manimity that is truly remarkable, now recommend to their patients the use of Nr. HOOPLAND'S GERMAN HITTIES, as a proventive against all souts of weakness. They give tone to the system, by purifying the blood, and invigorating the digestive apparatus. Mothers who are mursing, and old men find them invaluable, and if they were more generally used among our soldiers, all camp disenses would disappear. These Batters have been before the public over fifteen years, and their popularity is still on the increase. Their reputation is known in every country upon the globe, and in fact they are more universally used than all others. We do not urgo any one to take these Bitters, who imagine that ne benefit will be derived therefrom, but this we do know, that those who have used them, would not be without them for the world.

The Copperhead Candidates and Plat-

Gen McCiblian, of New Jersey, has been nominated for President, and to bo H PENULTON of Ohio, for Vice Presidenta Sectional to Let Both candidates are from I rec States - One of the Umon can didates is from lilinois, another from I ca nessee Which, now, is the Scutional

McClellan's nomination is due to his supposed ability to run well, and not to any qual fications he possesses, or fitness for so responsible an office, in so critical a period, requiring experience, knowledge, judgment, inmuness, sapacity, integrity and will As he won t be encited, i is of no use to discuss his fitness. Suffice it to say, that he bas been put upon a Platform so appatriblio and so manifestly in the interest of the Rebels, that no man sincerely devoted to the maintenance of the Union can support him It was said, before the Convention, that one of their resolutions would pledec the candidates to a prosecution of the War, upon the basis of the Criticaden proposition if the Rebels reject overtures of Peace -And this was proposed in the Convention, but the Platform as reported from the Committee, and adopted by the Convention, contains no such pledge. It contains no thing but a surrender to Rebels in aims and the humiliation, division, and degrada tion of the country All that the aboning ble and treasonable purposes of armed Rebels may be accomplished. It is un pleasant to be obliged to write such things of the action of any considerable body of American offizens, but it is our conviction that they are true, and we warm all patriots from touching these candidates, or approx ing their principles and purposes
